

DETECT REACT CONTROL

DIRCS

DIRECTIVE REACTIVE CONTROLLING SYSTEM

DEFENSIVE TACTICS & CLOSE COMBAT SYSTEM

INTRODUCTION

The DRCS World Headquarters was founded in 2010 by CPO Ret (HCG) Efthimis Tourtidis, having many years of experience in the Law Enforcement and Military field.

The DRCS World Headquarters, is an Official supplier for NATO (North Atlantic Treaty Organization - NCAGE G3096) and for the UN (United Nations - UNGM 982601) and it conducts courses for Civilians, Security Officers, Law Enforcement and Military Personnel, in many countries around the world such as Greece, Bulgaria, UK, Egypt, Iraq, Kuwait, Taiwan, Lebanon, Angola etc.

The courses are well designed and processed by the Global Instructor Team of The DRCS World Headquarters. Members of the GIT (Global Instructor Team), are ex-military, ex-law enforcement and on duty personnel, ready to bring their expertise in the training field.

The tactics used in the training are based on the DRCS (Directive Reactive Controlling System), one of the most effective self defense and close combat systems in the world, created by the experience in martial arts and by serving in the field of Military and Security Divisions of Law Enforcement Agencies.

The DRCS is being used by Security, Police and Army Officers but also by Civilians in many countries.

Join us, and give yourselves the chance to really learn how to defend yourself, your family and others.

Give yourself the opportunity to be trained under stressful situations with real results. Our goal is to make you a person who knows how to be a professional and responsible for its own safety.

WE ARE TRUSTED ACROSS THE WORLD

TESTIMONIALS ABOUT THE DRCS

What is the opinion of the Officers of the SUPREME JOINT WAR COLLEGE (SJWC), about the DRCS Training?

«In the modern environment we live in with the ever-increasing risk, DRCS is the most modern available system for the protection of ourselves and our family».

Major I TSAPTALIS Christos

«I am completely satisfied with this specific self-defense system. It is realistic, practical, and mostly Greek. It is worth promoting and becoming a key lesson for the armed forces and security forces.

Congratulations to the founder, health and strength to the trainers for a successful future with DRCS».

Major C LIANOS Aristidis

«Congratulations to the founder and the instructors. Very efficient and modern system, which covers all areas. It must be proposed and adopted by the Armed Forces and the security forces, thus covering the gaps that exist in the Self-Defense and the Armed Forces. Keep up the good work».

Lieutenant Colonel HAF MPOTZIOS Georgios

«It is a modern and effective self-defense system that is addressed to everyone and can be applied by any person, regardless of gender, physical strength or physical condition, as it focuses on neutralizing the opponent, by exerting pressure on strategically selected parts of his body».

Commander HN GRAMMENOS Theodoros

SELF DEFENSE COURSES

The Self-defense Training Courses are designed for every Civilian, Security, Law Enforcement and Military Personnel not only with no basic skills but also for the ones with experience from their fields. These courses are being held by the Civilian Training Sector of The DRCS World Headquarters. The training program is designed to help the trainees by teaching them basic safety tactics or even to upgrade their skills and capabilities and provide a person in charge of its own safety back to the society or a very well-trained officer back to the agency.

The participant will be trained in an intensive training program, by certified DRCS instructors. The Self Defense Courses are Basic, Advanced, Expert and Instructor. The objective of this course is to have the trainees acquaint with the principals, methods and tactics that can be used by civilians, Law Enforcement personnel and the Military Officers, something that makes this training to be useful especially for the ones who never had the chance to be trained in self-defense before.

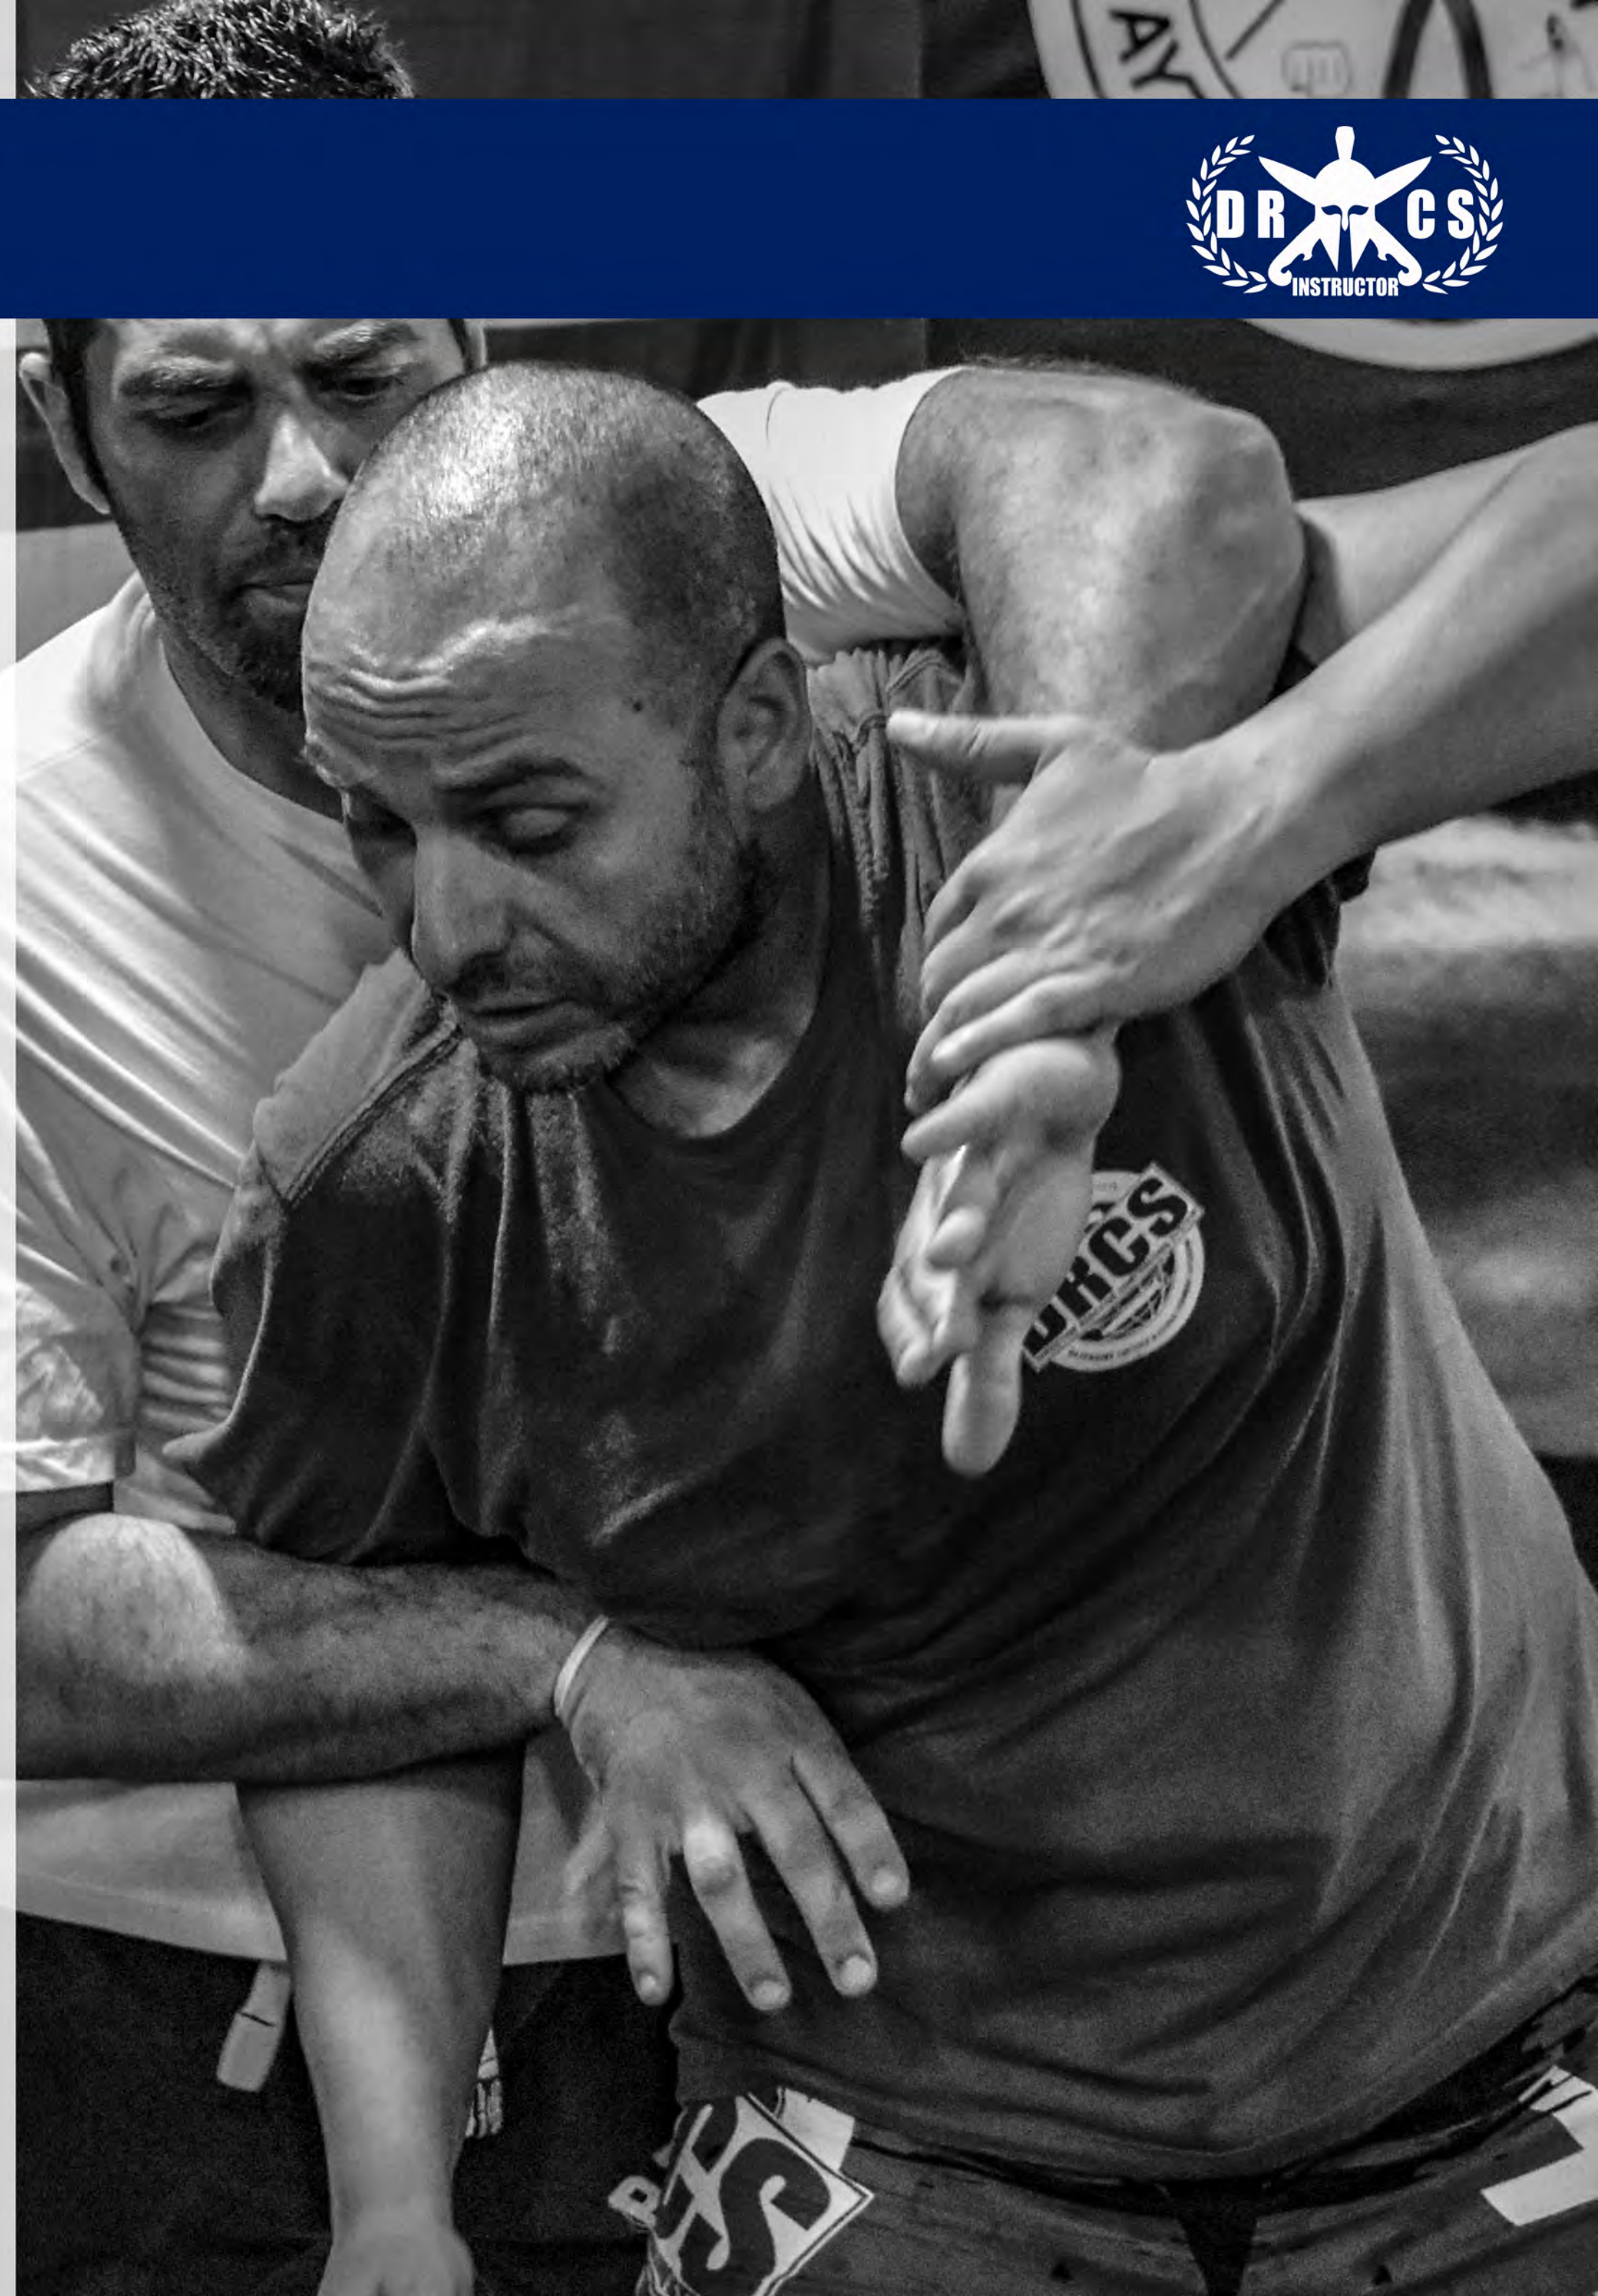

During the Self Defense Course, the trainees take knowledge for how to react in situations, where the use of self-defense is mandatory for protecting themselves and their loved ones.

The program is intensive but the trainee will be able to absorb all the knowledge that is needed to help him become a well-educated Civilian - Officer in his or her personal protection.

Basic principles of the DRCS method will be taught (theory, basic self-defense tactics etc), positions, body movement, reaction to single attacks but also to multiple attacks, in a way that the participants will be able after that to work with the best results.

This training program will prepare the participant for the best or the worst scenarios that may have to face in the line of work that will determine the result of his decisions under stressful situations.

The result is to ALWAYS BE SAFE.

HAND TO HAND COMBAT COURSES

This DRCS certified course, will teach combat coordinates that someone must know in order to overcome any violent encounter, against any attacker at a very short range.

The Hand-to-hand combat DRCS certified course (abbreviated H2H), approved by the United States Military and Law Enforcement Agencies, will teach you defensive tactics in case there is a non-lethal or a possible lethal physical confrontation between two or more persons at a very short range (grappling distance) that may also involve the use of firearms or other distance weapons from the assailant.

While the phrase "hand-to-hand" appears to refer to unarmed combat, the Hand-To-Hand combat DRCS certified course, will also focus on specific techniques to defend against the use of fire arms in close proximity, striking weapons used at grappling distance such as knives, sticks, batons, or improvised weapons such as entrenching tools.

The DRCS Hand To Hand Combat Courses are Basic, Advanced and Expert.

The objective of this course is to have the trainees acquaint with the principals, methods and tactics that can be used by the Police and Military Officers, something that makes this training to be useful for the Officer not only in urban field but also in hostile environment.

During the Hand To Hand Combat Course, the trainees take knowledge for how to work in situations, where the use of the empty hand fighting is mandatory for personal protection or for assisting a fellow operative.

Who should attend:

M/F Personnel involved in security or active engagement duties from Military Personnel, Law Enforcement Officers, Law Enforcement Special Units, Prison Guards. Strongly recommended for Law Enforcement, Military and Security personnel deployed in Metro systems, railroad systems, Airports and Prisons.

TACTICAL BATON COURSES

This DRCS certified course, will teach baton tactics that law enforcement & military personnel must know in order to overcome any violent encounter, against any attacker at a very short or middle range distance but also to have the ability to capture and restrain in order to arrest or just hold any suspect.

This DRCS certified course, will teach baton tactics that law enforcement & military personnel must know in order to overcome any violent encounter, against any attacker at a very short or middle range distance but also to have the ability to capture and restrain in order to arrest or just hold any suspect. The DRCS Tactical Baton course, which is approved by Military and Law Enforcement Agencies, will teach you defensive and offensive baton tactics in case there is a non-lethal or a possible lethal physical confrontation between two or more persons at a very short range (grappling) distance that may also involve the use of blade weapons or other distance weapons from the assailant.

While the phrase "Tactical Baton" appears to refer to the use of the classic police baton, the Tactical Baton DRCS certified course, will not only focus on specific techniques of the standard baton but also the use of collapsible baton and tonfa, to defend against the use of striking weapons used at grappling distance such as knives, sticks, batons, or improvised weapons such as entrenching tools, but also will train the participants in basic drills with the batons that they will be taught to defend.

Who should attend: Personnel involved in security or active engagement duties from the Military, Law Enforcement Officers, Law Enforcement Special Units, and Prison Guards.

Strongly recommended for Law Enforcement, Military and Security personnel deployed in Metro systems, railroad systems, Airports and Prisons.

The DRCS Tactical Baton courses are categorized in five levels: Basic - Advanced - Expert - Assistant Instructor - Instructor.

TACTICAL PISTOL COURSES

The Tactical Pistol Courses are designed for every Security, Law Enforcement and Military Personnel with Basic skills and experience from their fields.

These courses are being held by the Military Training Sector of the DRCS World Headquarters. The training program is designed to help the trainees to upgrade their skills and capabilities and provide a very well-trained officer back to their agencies. The participant will be trained in an intensive tactical training program, according to the highest military standards by certified instructors.

The Tactical Pistol Courses are Basic, Advanced and Expert. The objective of this course is to have the trainees acquaint with the principals, methods and tactics that can be used by the Police and Military Officers, something that makes this training to be useful for the Officer not only in urban field but also in hostile environment.

During the Tactical Pistol Course, the trainees take knowledge for how to work in situations, where the use of a pistol is mandatory, as one person, a two-person team and in a squad. The program is intensive but the trainee will be able to absorb all the knowledge that is needed to help him or her, become a well-educated Officer in the use of pistol tactics.

Basic principles of the pistol will be taught (theory, disassembly-assembly of a pistol etc), positions, body movement, weapon manipulation and dry tactics in a way that the participants will be able after that, to work with our instructors in the shooting range with the most help and with the best results.

The shooting program consists of various exercises for shots with no pressure and under pressure, that will also help the trainees to learn how to focus on their target no matter the difficulty of the target or the situations are around him.

According to the Training Program, Basic - Advanced - Expert, different training scenarios will be held for team movement and target shooting (shoot or no shoot targets), magazines and even different body equipment in order to help the trainee get the most of his training.

This training program will prepare the participant for the best or the worst scenarios that may have to face in the line of work that will determine the result of his decisions under stressful situations.

TACTICAL RIFLE COURSES

The Tactical Rifle Courses are designed for every Security, Law Enforcement and Military Personnel with Basic skills and experience from their fields. These courses are being held by the Military Training Sector of the DRCS World Headquarters. The training program is designed to help the trainees to upgrade their skills and capabilities and provide a very well-trained officer back to their agencies.

The participant will be trained in an intensive tactical training program, according to the highest military standards by certified instructors. The Tactical Rifle Courses are Basic, Advanced and Expert. The objective of this course is to have the trainees acquaint with the principals, methods and tactics that can be used by the Police and Military Officers, something that makes this training to be useful for the Officer not only in urban field but also in hostile environment. During the Tactical Rifle Course, the trainees take knowledge for how to work in situations, where the use of a rifle is mandatory, as one person, a two-person team and in a squad.

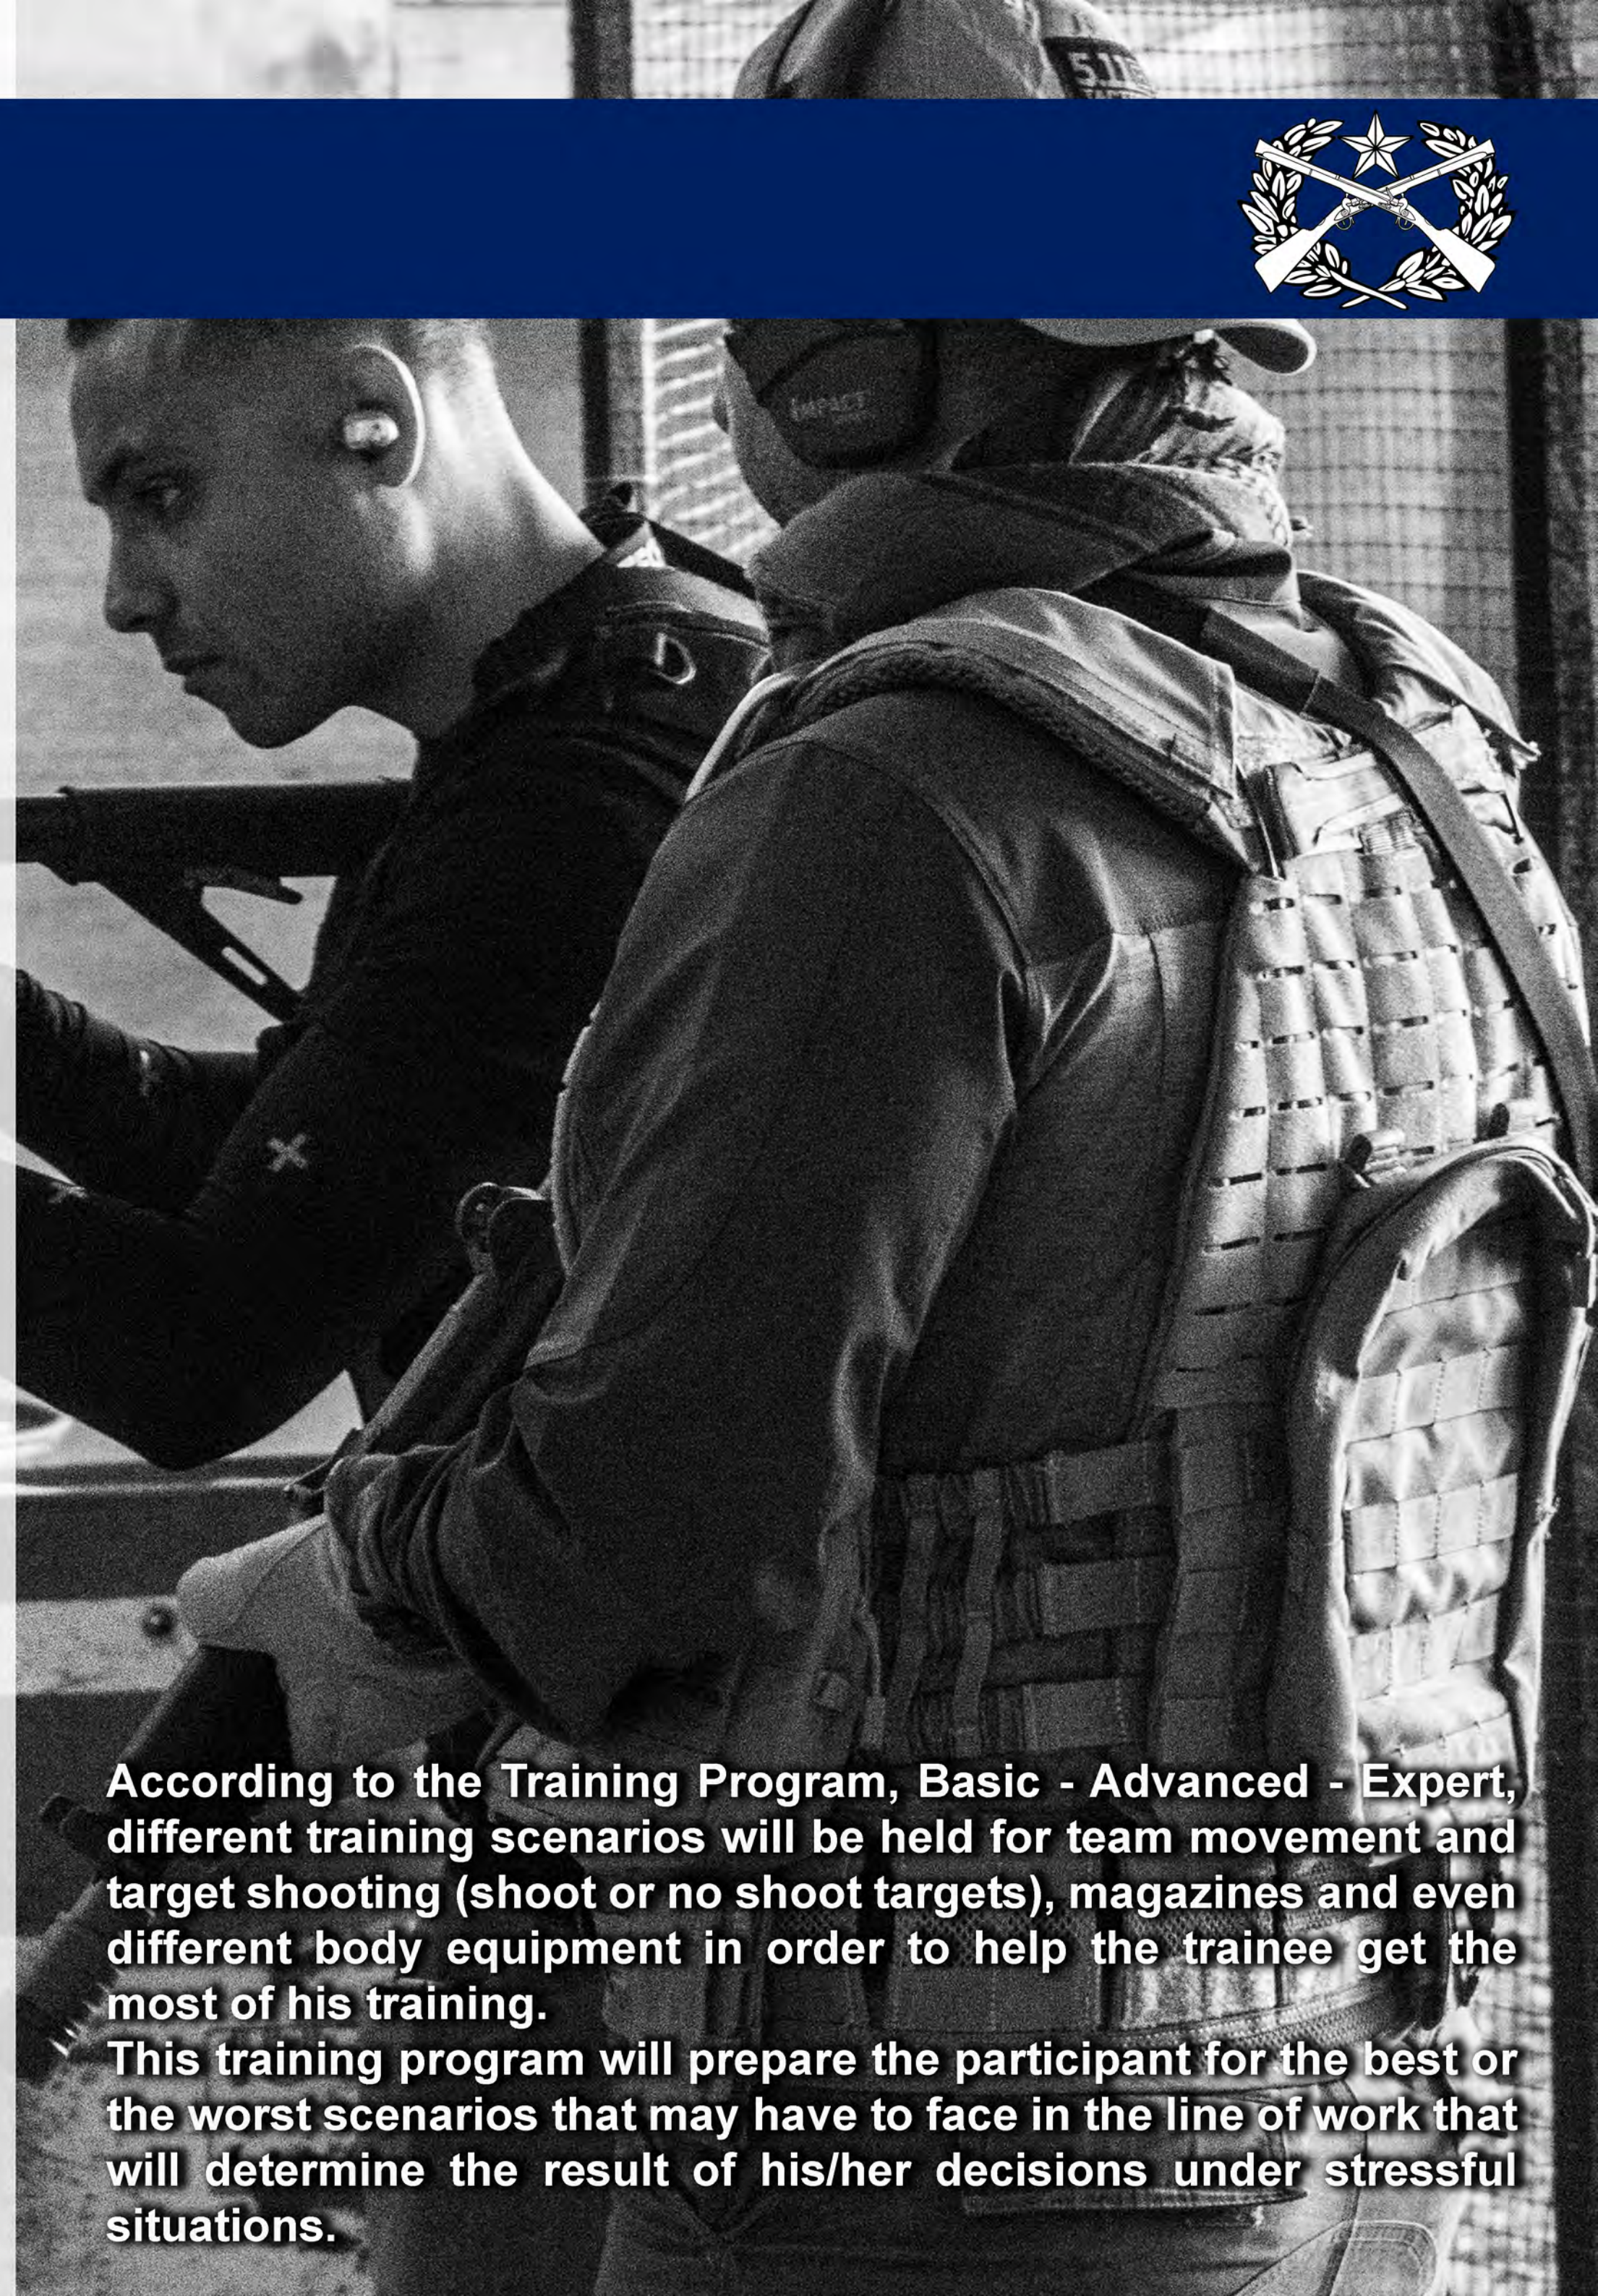

The program is intensive but the trainee will be able to absorb all the knowledge that is needed to help the trainee become a well-educated Officer in the use of rifle tactics.

Basic principles of the rifle will be taught (theory, disassembly-assembly of a rifle etc), positions, body movement, weapon manipulation and dry tactics in a way that the participants will be able after that to work with our instructors in the shooting range with the most help and with the best results.

The shooting program consists of various exercises for shots with no pressure and under pressure, that will also help the trainee to learn how to focus on the target, no matter the difficulty of the target or the situations are around him/her.

According to the Training Program, Basic - Advanced - Expert, different training scenarios will be held for team movement and target shooting (shoot or no shoot targets), magazines and even different body equipment in order to help the trainee get the most of his training.

This training program will prepare the participant for the best or the worst scenarios that may have to face in the line of work that will determine the result of his/her decisions under stressful situations.

PERSONAL SECURITY DETAIL

This DRCS certified course, will teach military close protection coordinates that someone must know, as a member of a PSD team working in hostile environment, in order to overcome any violent encounter that aims to harm in any way the person that is being protected.

The DRCS Personal Security Detail course (abbreviated PSDC), is an approved training program by Military, Law Enforcement and Security Agencies, and will teach you defensive tactics in case there is a non-lethal or a possible lethal threat against an official or non-official that is being protected by a PSD Team, that may also involve the use of firearms or other distance weapons from the assailant.

While the phrase "PSD" appears to refer to defensive tactics for personal security operatives, the Basic Personal Security Detail DRCS certified course, will not only train the participants in theory, such as history of PSD teams incidents and terrorism teams, but it will focus on specific techniques to protect your detail against the use of fire arms in close proximity, striking weapons used at grappling distance such as knives, sticks, batons, or improvised weapons such as entrenching tools. Finally, it will train the participants basic drills with the weapons that they will be taught to defend in order to protect their detail.

Who should attend:

Personnel involved in security or active engagement duties from the Military, Law Enforcement Officers, Law Enforcement Special Units, and Prison Guards.

EMBASSY SECURITY GUARD COURSE

This DRCS certified course, will teach military security coordinators that someone must know in order to overcome any violent encounter with the aim to invade an embassy or other government facilities and harm in any way the persons that are being protected or working inside these buildings.

The DRCS Embassy Security Guard Course (abbreviated ESGC), is an approved training program by Military, Law Enforcement and Security Agencies, and will teach you Law Enforcement and Military defensive tactics in case there is a non-lethal or a possible lethal threat against an official or non-official that is being protected or working inside an Embassy or other Government buildings, that may also involve the use of firearms or other distance weapons from the assailant.

While the phrase "ESGC" appears to refer to security tactics for Embassy Guards, the "Embassy Security Guard" DRCS certified course, will not only focus on specific techniques to protect the Government Personnel against any attack aiming to harm the people inside the building with the use of fire arms in close proximity, striking weapons used at grappling distance such as knives, sticks, batons, or improvised weapons such as entrenching tools, but also will train the participants in basic drills with the weapons that they will be taught to defend in order to protect the Embassy but also police tactics like restrain techniques, body searching, handcuffing, police baton etc.

Who should attend: Personnel involved in security or active engagement duties from the Military, Law Enforcement Officers, Law Enforcement Special Units, and Prison Guards.

Strongly recommended for Law Enforcement, Military and Security personnel deployed in Embassies, Airports and other Government facilities.

ADVANCED SYSTEM & PROCEDURES

ASP Integrated Training (Tactical Baton, Restraint and Performance Flashlight) puts no principle above simplicity. Techniques are simple to learn, easy to understand, effortless to remember, and designed to work for all officers, not just those highly skilled in psychomotor performance. ASP techniques work on the street, not just in the ideal environment of a classroom or gym. Thanks to their simplicity, ASP techniques are remembered and used on the street long after training ends.

ASP BASIC CERTIFICATION (ABC)

This field-level certification program is designed to acquaint participants with operational use of the ASP Tactical Baton, Tactical Restraints and/or Performance Flashlights. The training includes basic portation (carrying) and presentation (drawing) techniques as well as defensive application procedures. Certification acknowledges that the individual officer met a competency-based standard of knowledge and performance.

ASP INSTRUCTOR CERTIFICATION (AIC)

This advanced certification program is designed to acquaint participants with operational use of the ASP Tactical Baton, Tactical Restraints and Performance Flashlights and train them to conduct ASP Basic Certification (ABC) Programs. AIC Training includes all information and techniques provided in the ABC Program, with the addition of ASP Instructional techniques. Successful completion of the AIC Program certifies that the individual officer has met a competency-based standard of knowledge, has mastered performance skills, and has the ability to instruct ABC classes.

The word "Procedures" in our company name signifies our dedication to not only providing superior products, but also comprehensive training in their use. ASP training focuses on clear, simple, repeatable and legally-defensible techniques and tactics, fine-tuned over decades of experience and real-world results.

We feel so strongly about the importance of proper training that we provide roughly \$2 million worth of training each year to law enforcement at no cost. ASP training is so effective, and so respected, that it has been adopted by agencies in over 100 countries.

SET BREACHING

SWEDEN ENTRY SYSTEMS

The construction industry is evolving, consistently striving to develop stronger more secure buildings and materials to provide improved security and safety from crime, fire and natural disaster. These developments how ever can present a challenge to military and emergency services when they have to enter by force.

At Sweden Entry Tools (SET) we are committed to meeting and overcoming the challenge that these developments present to you when failure to enter is not an option. Our combined years of operational police experience in mechanical and explosive breaching has taught us that the right equipment together with the right training will provide the best chance of success. Our breaching tools and equipment combined with our knowledge and techniques prepare you for real situations. SET Breaching system is the only manufacturer that meets all these requirements.

- Easy to use
- Ergonomical way of working
- Lightweight
- Our breaching tools are produced with your safety in mind and will help you breach faster and more efficiently
- Anyone can use the equipment, regardless of body size or strength
- WE educate YOU in the use of all the different breaching tools with our complete training solution
- We offer a full after sales support service

The SET Breaching System will assist you in breaching either metal or wooden inward and outward opening doors, regardless of the degree of security, and effect entry through high-level security glass. The SET Breaching Tools are designed to be used with minimum effort for maximum effect.

The SET breaching courses can be adapted and tailored to meet your specific requirements to develop and enhance your breaching skills. Our accredited courses will train the students in the use and deployment of a wide range of breaching equipment and operational techniques using the SET Breaching System.

A FEW WORDS ABOUT THE FOUNDER OF THE DRCS

- Since 1980, Chief Petty Officer (CPO) (Hellenic Coast Guard Retired - HCG Ret) Efthimis Tourtidis (DRCS Founder & Master Instructor), has attended several seminars and events in Greece and abroad, either as a participant or an instructor.

- During his service in the Greek Army, he was the instructor of the Martial Arts & Self Defense Team of a Special Forces Unit.

- From 2004 until 2015, while serving in the Hellenic Coast Guard, he has been training fellow officers of the Central Port of Thessaloniki in Self Defense (Realistic and Competitive).

- For over 20 years he has been training his students with great responsibility and care, while combining oriental culture and tradition to the rules of western coaching. He emphasizes on learning techniques and on cultivating the mind, while using traditional and modern coaching principles of physiology and mechanics of the body.

- He wrote articles for "SAFETY AND PROTECTION" and "SPECIAL FORCES AND PROTECTION" magazines, introducing not only safety courses, but also Military Self Defense & Close Combat in the self-defense and military tactics columns.

- He is the Founder and Master Instructor of the Directive Reactive Controlling System (DRCS).

- He holds degrees in JuJutsu, Kick Boxing and Bujinkan Budo Taijutsu.

- He has been a self-defense champion in National, European and World Championships for many years.

- He is the CEO and Master Instructor of The DRCS World Headquarters.

- He is the ASF Master Instructor.

- He is a Breaching Instructor for SET Breaching Systems.

- He is an ASP Instructor Trainer.

- He is a BolaWrap Master Instructor.

- He is an Ambassador for 5.11 Tactical.

- He has conducted self-defense, hand to hand combat and weapon and tactics courses for Civilians, Law Enforcement and Military Agencies in Greece, Cyprus, Bulgaria, England, Ireland, Portugal, Egypt, Tunisia, Angola, Mauritius, Lebanon, Kuwait, Iraq, Taiwan and Japan.
